## Top 11 Reasons

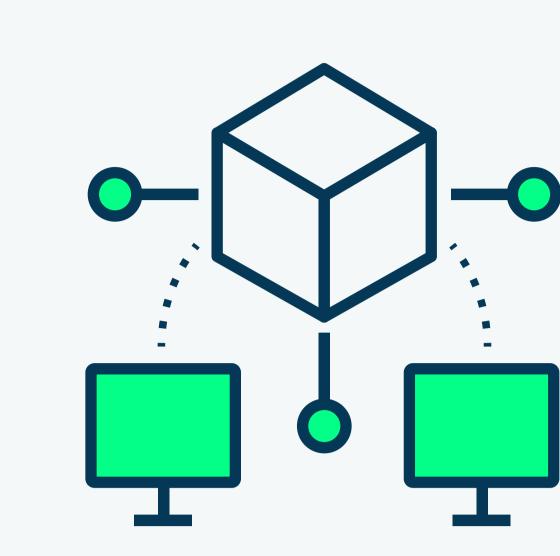

to choose NinjaOne RMM

ACCELERATE OPERATIONS

With a user-friendly interface and lightning-fast onboarding, your team will be up and running in no time. "One of the reasons we chose NinjaOne is its extreme ease of use, and it's very easy to get new employees up to speed quickly." – Jason Danner, Managing Director

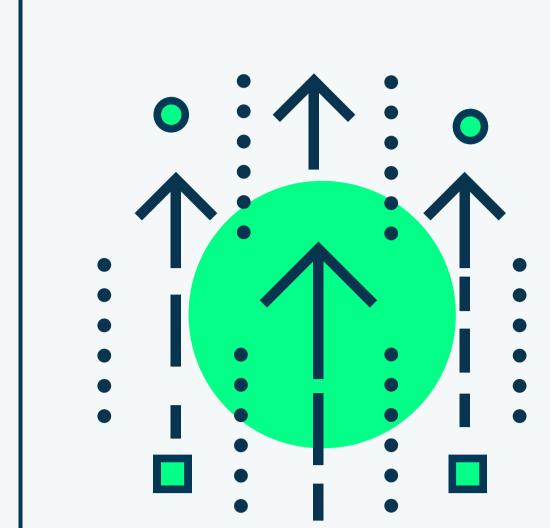

MASTER ENDPOINT MANAGEMENT

NinjaOne offers a comprehensive endpoint management solution, covering everything from patch management and multi-tenancy MDM to remote control and asset management. 91% of MSPs say that their technicians can manage up to 250 additional endpoints after switching to NinjaOne RMM.

ninjaone®

EXPAND YOUR TECH STACK

NinjaOne is the ultimate team player with 30+ integrations to choose from. You can build a tech stack that works together like a well-oiled machine with seamless integrations with your favorite PSA, antivirus, and remote access tools.

DRIVE INNOVATION
TOGETHER

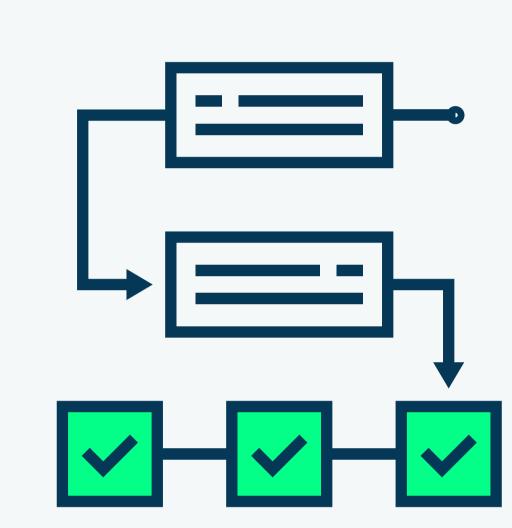

Your voice matters. We're not just building a product; we're building a partnership. NinjaOne's roadmap is driven by customer feedback, ensuring we're constantly developing features that solve your biggest challenges.

UNMATCHED SUPPORT

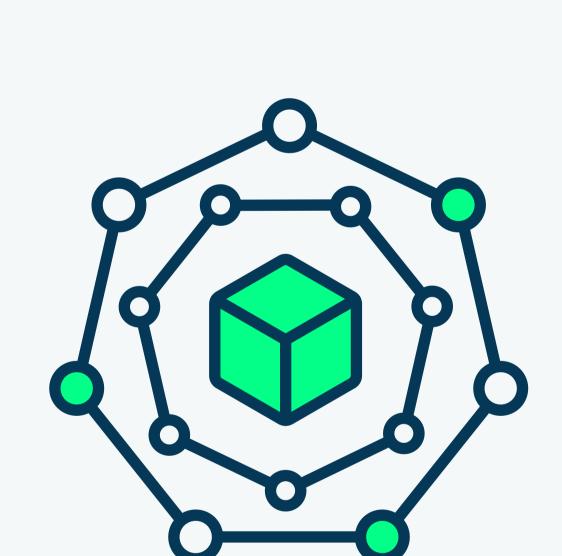

Need help? Our world-class support team is here for you 24/7 with an average response time of one hour or less. With unlimited free onboarding and ongoing support, you'll never feel alone—especially with a community where our partners help share scripts and best practices.

STREAMLINE ONBOARDING

Did you know 91% of MSP customers report spending 5 hours or less onboarding new clients? Or that NinjaOne RMM is so easy to learn, simple to use, and fast to onboard 73% of MSP customers report being operational in under one week?

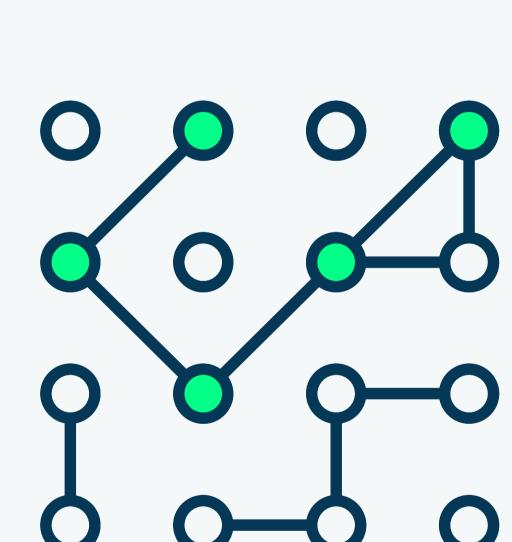

FORTIFY YOUR

SECURITY

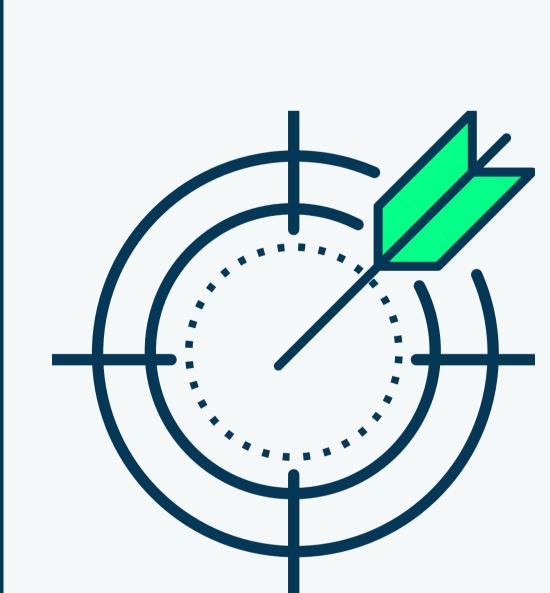

Your client's data is our top priority, and every remote session is protected by TLS and 256-bit encryption.
NinjaOne offers advanced security features to protect your endpoints from threats, giving you peace of mind and building trust with your clients.

CUSTOMIZE YOUR PLAN

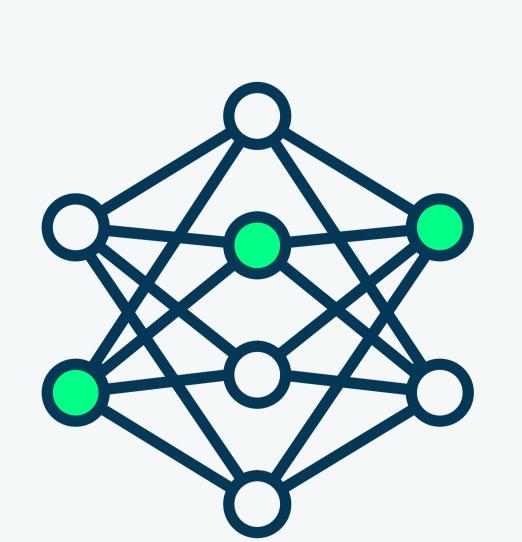

We understand that every MSP is different. That's why NinjaOne offers flexible pricing plans to fit your MSP's needs, no matter what stage of growth your business is in.

AUTOMATION THAT DELIVERS

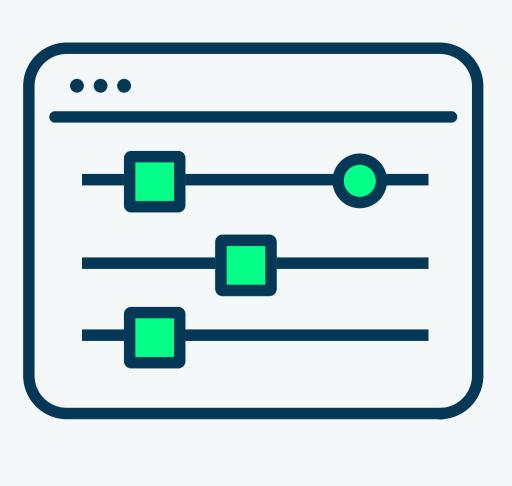

According to NinjaOne's MSP ROI survey, 89% of respondents said Point to Automation, Remote Capabilities, and Patch Management were key to their efficiency, reducing manual intervention, minimizing downtime, and enabling more proactive management.

EMPOWER REMOTE TEAMS

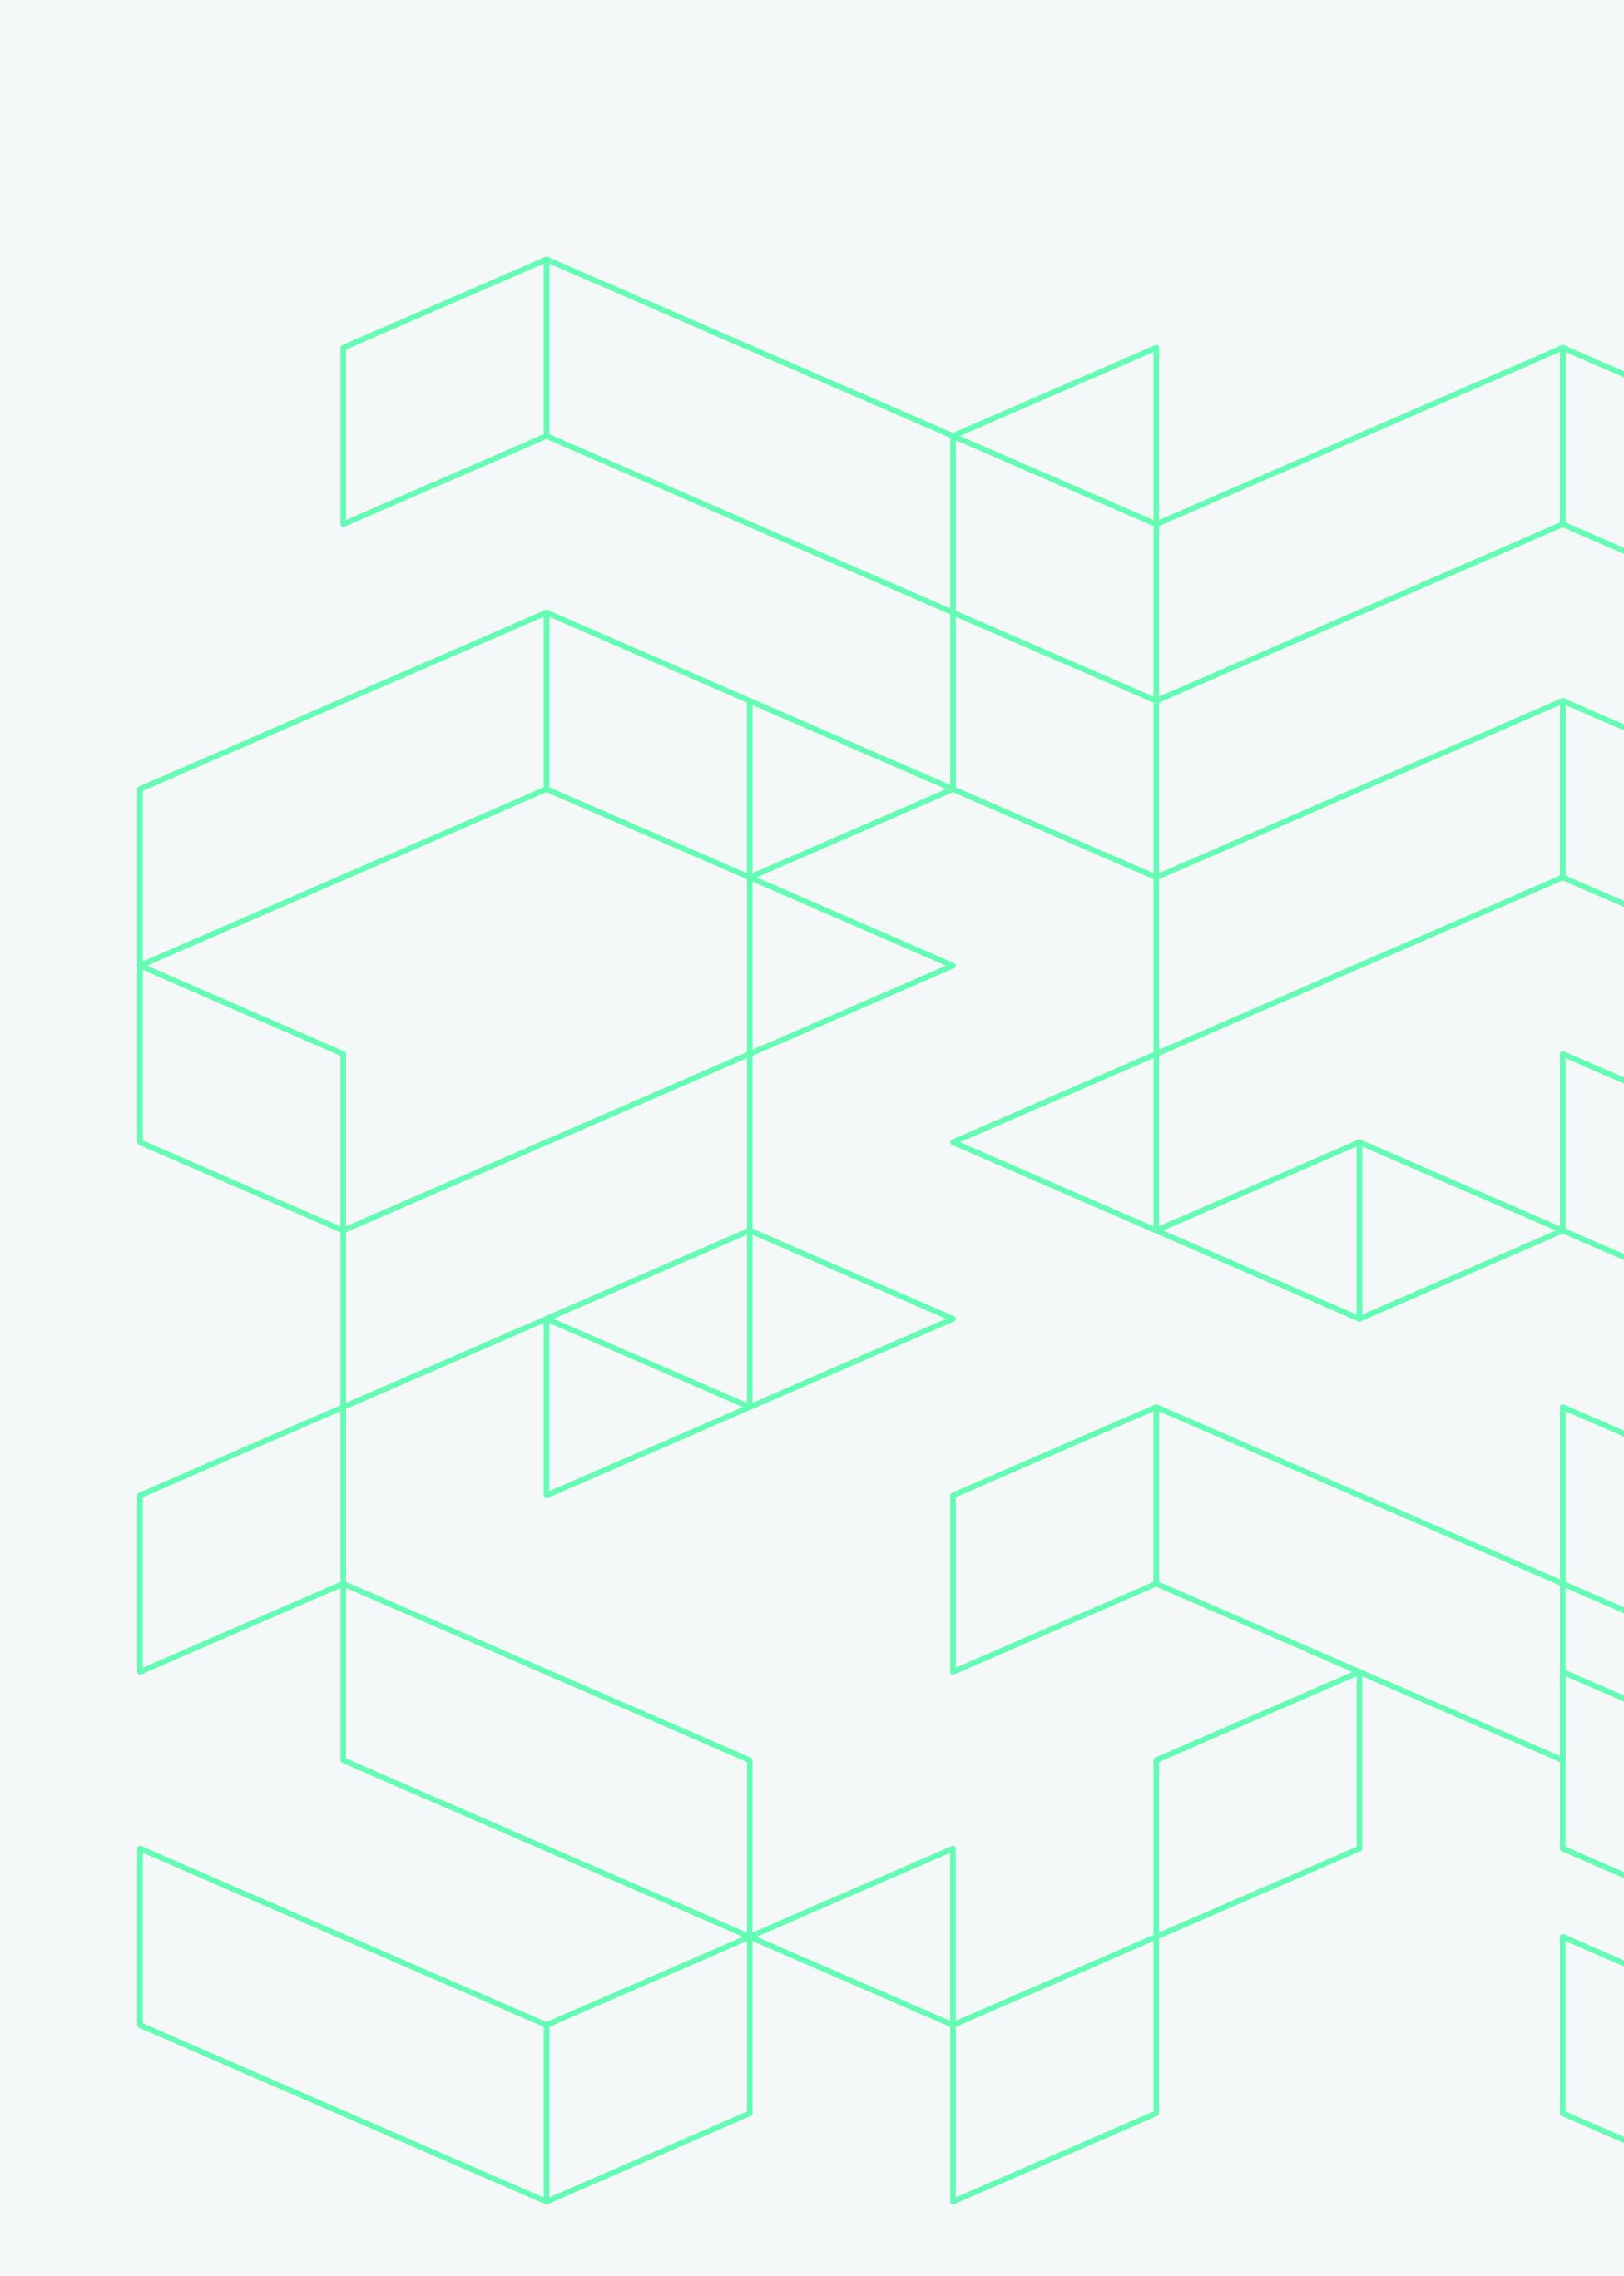

In today's hybrid work environment, NinjaOne ensures your team can work efficiently from anywhere. You can keep your business running smoothly with remote access, mobile device management, and secure remote support.

EXPERIENCE PROVEN RESULTS

Industry experts and users consistently recognize NinjaOne as a top RMM solution. Our track record of success speaks for itself.
